THE COUNCIL.

David Walsh Confirmed as West Side City Justice.

The Proceedings Interrupted by a Dog Fight and Brass Band.

Report of the Amateur Geologists on the New City-Hall Stonework.

The Contractors Charged with Grossly Violating the Specifications.

The regular weekly meeting of the City Council was held last evening, all of the members present except Ald. Tuley, McCormick, Thompson, and Wetterer.

The official bond of C. S. Cameron was read and approved. The signers were Pat Carroll and F. H. Winston.

The bond of L. M. Mills, as Bridewell-Inspector, was approved. The signers were J. J. Healy and Jacob Gross.

The Police Committee submitted a report recommending the confirmation of David Walsh as Police Justice. The report was carried in Ald. Cullerton and McCaffrey voting in the negative.

Bills from the county for various purposes, amounting to \$15,300, were read and referred.

An ordinance was introduced by Ald. Joan to allow the Lincoln Park Committee control of certain parts of Dearborn avenue, Pine and State streets. Referred to the Committee on Streets and Alleys.

THE CITY-HALL.

Ald. McCaffrey introduced a resolution calling upon Tomlinson & Read to inform the Council they would charge in addition to their present contract to substitute granite for the entrances, pilasters, and columns in the new City-Hall, the cost of which was not to exceed \$10,000.

And the Committee submitted a report authorizing the purchase of any ground for school purposes, \$100 per acre, to the City of West Side.

STATE AFFAIRS.

Proceedings of the Illinois Legislature—Winter Session.

The Overworked Members Go on a Pleasant Excursion to Chester.

“De l’Andace, Encore de l’Andace, et Toujours de l’Andace.”

Astonishment of the Few Remaining Apologists of the Assembly.

Necessity, Now, of Hard Work in Order to Get Through During June.

REMARKS.

Speaker’s Speech to the Prisoners.

Springfield, May 26.—The business remains to be done, which must be finished is the passage of the Appropriation bill, which should have been disposed of two months ago. The General Appropriation bill has passed the Senate, has come to the House, and was referred to the Committee on Appropriations. This Committee has held two long sessions over the bill, the consideration of which is now about half completed. It will be finished this evening, probably, and reported back to the House to-morrow. It will then be printed, and, in accordance with the rules of the House, will have to remain in the boxes of members three days before it can be acted upon. This will bring the session up to Thursday, the last working day. The bill will then be discussed and sent to the Senate for its consideration in amendment. All this cannot be done in one day, and the session must be adjourned in the interests of the Democracy to the General Appropriation bill. This will cause delay, and, in view of the fact that there are a large number of members interested in important measures that are not Appropriation bills, who will hang on as long as there is any prospect of getting them passed, there is no prospect for an adjournment this week. On Thursday, a recess must take place until the following Tuesday, if the fine adjournment is not effected. In that case there is no telling where the machine will stop—certainly not much before the middle of June. For this general delay of the session the Senate is to blame, and the House and the speaker who has any perception of what ordinary efficiency and diligence means, in the matter of legislation, knows that this session of the General Assembly will be a failure, and will be adjourned at least six weeks. The Thirtieth General Assembly spent four weeks of its session in the election of a United States Senator. The present General Assembly spent about a week in the same. You can hardly imagine general business to be extenuated beyond legislation some three or four topics, the present General Assembly has been seen to sit five months, and to have presented only six bills of its year. It will go down to history as the most disgraceful and expensive Legislature that ever sat in the State.

HOUSE.

Special Session to the Tribune.

SPRINGFIELD, Ill., May 26.—On Saturday a large number of the members of the House, headed by Speaker James, quit business and went on a pleasure excursion to the Chester Prison. Half a day’s work was thereby lost.

The House adjourned then to meet at 2:30 o’clock p. m. to-day, losing another half day. When the hour for the meeting arrived the party of Legislative pleasure-seekers had not yet returned, and no business could be done.

Mitchell called the House to order, whereupon McKinlay moved a call of the House, which was carried.

Hallinan moved a leave of absence for the Speaker, and the fifty-six members of the House and Senate with him. The motion was not entertained by the Chair.

Fremmel offered the following resolution:

WHEREAS, In the dispensation of a wise Providence, the Speaker of this House and a great number of its members have run into a sand-bat on the floor of the House, and

Resolved, That Ben Butler, alias Uncle Wesley Fremmel, be declared Speaker pro tem. of this House.

Butler moved to amend by striking out the word sand in the resolution.

The Speaker declared the resolution and the amendment out of order.

The House then adjourned.

The unaccountable recklessness which allows a large number of members to abandon business at this particular stage of affairs, and go off on an expedition of this character is something astounding to the ordinary understanding.

The expedition has apparently destroyed what little credit there was in a single day’s adjournment this week, and will be a single day’s adjournment less than the sum of \$25,000. Why the taxpayers of Illinois should be taxed this sum of money, or any other sum, for any purpose, can tell. It is robbery, and nothing less. The expedition will probably result in the Legislature being compelled to take a recess from the 1st of June to the 4th, and then a session of forty days.

First, by a rapid mode of transmission; second, by harmonized machines automatically independent of the line to prepare and transmit a facsimile reproduction of the original recorded paper of fax, and therefore automatically produce a facsimile of the kind; though it is not at all improbable that some of the things lights may be it upon transmitted to the receiving station by wire.

The invention, which is covered by six patents, is defined to consist of:

Second—Automatically transmitting message station.

Third—Automatically reproducing, at the receiving station by proper mechanism, a fac simile of the message.

Fourth—Using by suitable mechanism independent of the line, at the proper receiving station, to automatically reproduce a fac simile of the kind; though it is not at all improbable that some of the things lights may be it upon transmitted to the receiving station by wire.

The invention has been made with particular reference to the possibility of using a telegraph system as means whereby the cheapest and most rapid transmission of intelligence can be obtained by the blending of science and art will admit.

The telegraph system has been secured by letters patent.

It is designed to utilize the labor of the unemployed operators in the line at the stations, who are being trained by furnishing the operators with employment in preparing messages to be automatically sent, and in attending the machine automatically printing them.

First, by a rapid mode of transmission;

second, by harmonized machines automatically independent of the line to prepare and transmit a facsimile reproduction of the kind;

third, by a rapid mode of transmission;

fourth, by a rapid mode of transmission;

and fifth, by a rapid mode of transmission;

and sixth, by a rapid mode of transmission;

and seventh, by a rapid mode of transmission;

and eighth, by a rapid mode of transmission;

and ninth, by a rapid mode of transmission;

and tenth, by a rapid mode of transmission;

and eleventh, by a rapid mode of transmission;

and twelfth, by a rapid mode of transmission;

and thirteenth, by a rapid mode of transmission;

and fourteenth, by a rapid mode of transmission;

and fifteenth, by a rapid mode of transmission;

THE CITY.
GENERAL NEWS.

François Palma, Detroit, is at the Tremont. D. B. Churchill, Omaha, is at the Sherman. Henry Root, Quincy, Ill., is at the Palmer. Capt. Dennis Bates, U. S. A., is at the Pacific. J. M. Dunnigan, of Ottawa, Ill., is at the Pacific. H. L. Burnett, New York, is staying at the Palmer. Judge John J. Gleeson, Monmouth, Ill., is at the Pacific. C. F. Whitsaker, of North Adams, Mass., is at the Gardner. William E. Smith, Mobile, Ala., is a guest of the Tremont.

W. A. Ellis, Peshtigo, Wis., is registered at the Tremont.

Gov. P. C. Cheney, of New Hampshire, is a guest of the Pacific.

W. S. Single, of the Lafayette, Ind., Courier, is a guest of the Tremont.

R. C. Hitchcock, Yokohama, Japan, is one of the guests of the Palmer.

A. F. Howard, Portsmouth, N. H., is among the guests of the Sherman.

George M. Mowbray, North Adams, Mass., is one of the guests of the Pacific.

J. A. Henderson, General Agent of the Ohio & Mississippi Railroad, is at the Palmer.

Birch Price, Member of Congress from the Second Iowa District, is among the guests of the Pacific.

Henry Westbury, of the Strandbach Opera Company, and Gus Bohmer, agent for Wilhelms, are at the Pacific.

Victor Hawkinson yesterday procured the services of a lawyer to represent him in his new office, Room 18, Uhlrich Block.

Berry G. Fulling, the former proprietor of the Commercial, has returned from the East in improved health, and is at the Gardner.

Brig. Gen. George Crook, in command of the Department of the Plate, is in the city yesterday evening, and is staying at the Hotel of the City.

Mr. Scott, Jr., the art auctioneer of Philadelphia, is at the Palmer House. He is making preparations for an important art sale here in an early date.

Among the first excursionists of the season from the city of the Ohio are Mrs. John A. Schieffelin and her sister, Miss M. A. Chambers, both of Dayton.

Telegrams received yesterday from Gen. Sherman state that himself and party have an appointment at the Amherst Col., the headquarters of the campaign on the route to Poughkeepsie.

The temperature yesterday, as observed by Manasseh, 88 Madison street (TRIBUNE Building), was 67° F. (65° degrees); 10 a.m., 65°; 12 m., 67°; 2 p.m., 68°; 8 p.m., 68°; 10 p.m., 65°; 12 m., 67°; 2 p.m., 68°; 8 p.m., 68°; 10 p.m., 65°.

A young girl named Rosalie Rueter, recently from Prague, was given shelter at the home of a Mrs. Wanda Miller, who is looking for a home for her, a Mrs. Wanda Miller, the wife of her father, supposed to be doing business in this city.

A meeting of the Union Veterans Club was held last evening at the Grand Pacific Club, and the members of the city were invited to join in the observance of Decoration Day. All the veterans, warors, then invited are expected to meet at the hotel at 1:30 o'clock Friday afternoon.

William G. Fulling, 26 years of age, living with his parents at No. 151 West Seventeenth street, while taking a walk out to the prairie yesterday afternoon, was bitten by a snake. Dr. W. Lee, who attended him at his home, found that the skull had been fractured, but he was not able to say at present whether it would result fatally.

Edward Pleasant, colored, 28 years of age, died suddenly at the home of his parents, No. 263 Carroll avenue. Dr. Lewis, who summoned the physician when he was taken ill, was told that he was supposed to have been the cause. Heart disease of death from apoplexy was returned by the Coroner's office.

August Knut, living at No. 189 Cornell street, was missing since the 2nd instant, and his friends and the police are looking for him. He is about 28 years of age, has feet six inches, complexion and light moustache. When last seen, he was clad in a light coat, black soft hat, and dark pants and vest.

The Home of Incorporation of the Chicago Academy of Fine Arts has been obtained, and a meeting of the students and guests at the Palmer House to mark the 20th anniversary of the organization. The school is the first institution of the new institution is the first institution of the new institution of the general line of policy for next.

Alfred Ziegemeyer, the murderer of one of his sisters, was born in Wittenberg, Germany, and was brought to the United States by his parents, who came to this country in 1868. He was a student at the University of Wittenberg, and was a member of the secret organization of the Knights of Columbus. A full account of the life of Ziegemeyer was given in the Tribune, and his family was buried in the cemetery of Wittenberg.

Death of CAL NEWMAN.

A letter received from Leadville yesterday mentions the death of F. Cal Newman, a man who was perhaps as widely known in this city as any other who lives here. The cause of death was heart disease.

He was a man of 47 years of age, and is supposed to have been the cause. Heart disease of death from apoplexy was returned by the Coroner's office.

Death of CAL NEWMAN.

A letter received from Leadville yesterday mentions the death of F. Cal Newman, a man who was perhaps as widely known in this city as any other who lives here. The cause of death was heart disease.

He was a man of 47 years of age, and is supposed to have been the cause. Heart disease of death from apoplexy was returned by the Coroner's office.

August Knut, living at No. 189 Cornell street, was missing since the 2nd instant, and his friends and the police are looking for him. He is about 28 years of age, has feet six inches, complexion and light moustache. When last seen, he was clad in a light coat, black soft hat, and dark pants and vest.

The Home of Incorporation of the Chicago Academy of Fine Arts has been obtained, and a meeting of the students and guests at the Palmer House to mark the 20th anniversary of the organization. The school is the first institution of the new institution is the first institution of the new institution of the general line of policy for next.

FINANCE AND TRADE.

Break in the Price of 4 Per Cent Refunding Certificates Lower.

Board of Trade Loans for Settlement Day—Local Securities and Railroad Stocks.

The Produce Markets Moderately Active—Provisions Steady—Hogs Firm.

Wheat and Oats Weakened by the Rain—Corn Easier—Flour Quiet.

FINANCIAL.

There was a break in the price of 4 per cent. The opening quotation was 103 $\frac{1}{2}$ at 103 $\frac{1}{2}$, but the market was broken by the cessation in demand and the large sales caused by the high price to which the 4s have been paid by the Syndicate.

There is a handsome profit in selling at present prices bonds bought of the Syndicate when they began to work off their acquisitions. As for the gains of the Syndicate, they are simply immense. There are literally "millions" in it.

Baltimore & Ohio on Friday sold at 103 $\frac{1}{2}$, a decline of 3 from the lowest point of Thursday.

The European conference about the Isthmus of Darien Canal has brought out the Central American transit stock in Wall street, and it sold on Friday at 13 $\frac{1}{2}$.

Operators who want to take a "flier" in the Marquette & Cincinnati because it is cheap are reminded by the Wall-Street Daily.

There are literally "millions" in it.

Bonds on the market put down the price of 4s to 103 $\frac{1}{2}$ in the afternoon to 103 $\frac{1}{2}$. The price of refunding certificates also went down. In Chicago the brokers were paying 103 $\frac{1}{2}$. The Chicago prices for bonds were: 6s of 1881, 103 $\frac{1}{2}$ bid and 103 $\frac{1}{2}$ asked; 6s of 1881, 103 $\frac{1}{2}$ bid and 104 $\frac{1}{2}$ asked; 4s, 103 $\frac{1}{2}$ bid and 103 $\frac{1}{2}$ asked; 4s, 103 $\frac{1}{2}$ bid and 103 $\frac{1}{2}$ asked; 4s, 103 $\frac{1}{2}$ bid and 103 $\frac{1}{2}$ asked.

The London Times reported that the New York Financial Chronicle differ in their views about the price of securities. The former says that 4 per cent are getting too high to attract investors, who cannot shut their eyes to the fact that there has been a good deal of inflation in the prices of United States securities lately. Resumption, so called, has been a signal for a great outburst of speculation, which had laid hold of stocks, in many instances high priced before the inflating movement began. On the other hand, the Chronicle believes that, though "some rubbish has been carried along with the current, the general upward tendency is entirely legitimate," and that "there seems to be reason for expecting a continued improvement to come off (and with occasional sags) all unadjusted securities rule at high rates." A high Treasury official is reported in the Washington dispatches as saying that the 4 per cent could not be maintained at their present high prices. A New York firm have prepared the following comparative table to show which issues of Government are more desirable for investment:

ARE WORTH TO YIELD			
Per cent.	Per cent.	Per cent.	Market price.
Kansas Pacific.	104.90	100.58	103 $\frac{1}{2}$
Chi. & Mississ.	105.84	103 $\frac{1}{2}$	103 $\frac{1}{2}$
S. L. & S. F. 1st p'd.	104	100	103 $\frac{1}{2}$
Mountain.	105.85	105.45	107
6 cent.	106.38	107	107
1881.	106.89	107	107
C. & P. per cent.	106.02	107	107
1880.	103.07	120.45	125 $\frac{1}{2}$
1887.	131.18	127.48	125 $\frac{1}{2}$
C. & P. per cent.	108.00	107	107
1881.	102.45	120.39	125 $\frac{1}{2}$
1882.	102.45	120.39	125 $\frac{1}{2}$

Foreign exchange was down. Rates remained without change. Chicago sterling grain-sellings were 48 $\frac{1}{2}$ for day-bills and 48 $\frac{1}{2}$ for eight-day bills. The actual Chicago rates for sterling were 48 $\frac{1}{2}$ and 48 $\frac{1}{2}$ at 103 $\frac{1}{2}$. In New York the actual rates were the same as in Chicago. The posted rates for sterling were 48 $\frac{1}{2}$ at 100. French banks' bills were 515 $\frac{1}{2}$ at 103 $\frac{1}{2}$.

Consols were higher, at 98 15-16. The price of silver has now advanced in London to 51 per cent. An important change has recently taken place in the London money market, and consequently in the temper of stock speculation. According to the Times of May 10, the demand for money for speculative purposes, both in the stock market and for other uses, has been steadily diminishing for a long time. The public are for the time being practically abandoned the stock market, except for the purpose of buying the better kinds of securities, and the class of operators whose business consists mainly of speculation has considerably diminished in number. The facilities offered to the public to speculate in the market have consequently been much curtailed, simultaneously with a change in the circumstances affecting the more speculative stocks, which have resulted in there being fewer favorable opportunities for speculating. Money, again, is no longer to be borrowed or the London banks on speculative stocks upon the old scale, and therefore very cheap money is an element in the business of much diminished importance.

Board of Trade applications for loans with which to make the settlements of the first of the month were the new feature of the local money market. There will be a heavy Board of Trade demand for accommodations for next month.

Rates are 62 $\frac{1}{2}$ per cent on call and 70 $\frac{1}{2}$ per cent on time, with some choice call loans at 5 per cent, and some small time loans at 10 $\frac{1}{2}$ per cent. There were liberal receipts of currency from New York, and New York exchange was weak. Legal-tenders were worth a premium of 50 per cent on account of the demand from the brokers dealing in refunding certificates. Bank clearings were \$3,400,000.

There was a loan of County 7 $\frac{1}{2}$, long, at 103 $\frac{1}{2}$, and a loan of 50,000 more, with 10 $\frac{1}{2}$ per cent. Cook Consols 5 per cent were sold at 102 $\frac{1}{2}$ (102 $\frac{1}{2}$), and interest.

In the stock market the movement of prices was uniformly upward, though fluctuations were not wide, and transactions not specially active. The unfavorable bank statement of Saturday had little or no influence on stocks as it was well understood that the legal-tenders going into the Treasury were being paid out again for called bonds. The heavy rates that fell in Iowa, Wisconsin, and Illinois affected speculation more than the bank statement. Western buyers again entered the market, and large blocks were bought on Chicago or Boston, and the market was 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100, 102, 104, 106, 108, 110, 112, 114, 116, 118, 120, 122, 124, 126, 128, 130, 132, 134, 136, 138, 140, 142, 144, 146, 148, 150, 152, 154, 156, 158, 160, 162, 164, 166, 168, 170, 172, 174, 176, 178, 180, 182, 184, 186, 188, 190, 192, 194, 196, 198, 200, 202, 204, 206, 208, 210, 212, 214, 216, 218, 220, 222, 224, 226, 228, 230, 232, 234, 236, 238, 240, 242, 244, 246, 248, 250, 252, 254, 256, 258, 260, 262, 264, 266, 268, 270, 272, 274, 276, 278, 280, 282, 284, 286, 288, 290, 292, 294, 296, 298, 300, 302, 304, 306, 308, 310, 312, 314, 316, 318, 320, 322, 324, 326, 328, 330, 332, 334, 336, 338, 340, 342, 344, 346, 348, 350, 352, 354, 356, 358, 360, 362, 364, 366, 368, 370, 372, 374, 376, 378, 380, 382, 384, 386, 388, 390, 392, 394, 396, 398, 400, 402, 404, 406, 408, 410, 412, 414, 416, 418, 420, 422, 424, 426, 428, 430, 432, 434, 436, 438, 440, 442, 444, 446, 448, 450, 452, 454, 456, 458, 460, 462, 464, 466, 468, 470, 472, 474, 476, 478, 480, 482, 484, 486, 488, 490, 492, 494, 496, 498, 500, 502, 504, 506, 508, 510, 512, 514, 516, 518, 520, 522, 524, 526, 528, 530, 532, 534, 536, 538, 540, 542, 544, 546, 548, 550, 552, 554, 556, 558, 560, 562, 564, 566, 568, 570, 572, 574, 576, 578, 580, 582, 584, 586, 588, 590, 592, 594, 596, 598, 600, 602, 604, 606, 608, 610, 612, 614, 616, 618, 620, 622, 624, 626, 628, 630, 632, 634, 636, 638, 640, 642, 644, 646, 648, 650, 652, 654, 656, 658, 660, 662, 664, 666, 668, 670, 672, 674, 676, 678, 680, 682, 684, 686, 688, 690, 692, 694, 696, 698, 700, 702, 704, 706, 708, 710, 712, 714, 716, 718, 720, 722, 724, 726, 728, 730, 732, 734, 736, 738, 740, 742, 744, 746, 748, 750, 752, 754, 756, 758, 760, 762, 764, 766, 768, 770, 772, 774, 776, 778, 780, 782, 784, 786, 788, 790, 792, 794, 796, 798, 800, 802, 804, 806, 808, 810, 812, 814, 816, 818, 820, 822, 824, 826, 828, 830, 832, 834, 836, 838, 840, 842, 844, 846, 848, 850, 852, 854, 856, 858, 860, 862, 864, 866, 868, 870, 872, 874, 876, 878, 880, 882, 884, 886, 888, 890, 892, 894, 896, 898, 900, 902, 904, 906, 908, 910, 912, 914, 916, 918, 920, 922, 924, 926, 928, 930, 932, 934, 936, 938, 940, 942, 944, 946, 948, 950, 952, 954, 956, 958, 960, 962, 964, 966, 968, 970, 972, 974, 976, 978, 980, 982, 984, 986, 988, 990, 992, 994, 996, 998, 1000, 1002, 1004, 1006, 1008, 1010, 1012, 1014, 1016, 1018, 1020, 1022, 1024, 1026, 1028, 1030, 1032, 1034, 1036, 1038, 1040, 1042, 1044, 1046, 1048, 1050, 1052, 1054, 1056, 1058, 1060, 1062, 1064, 1066, 1068, 1070, 1072, 1074, 1076, 1078, 1080, 1082, 1084, 1086, 1088, 1090, 1092, 1094, 1096, 1098, 1100, 1102, 1104, 1106, 1108, 1110, 1112, 1114, 1116, 1118, 1120, 1122, 1124, 1126, 1128, 1130, 1132, 1134, 1136, 1138, 1140, 1142, 1144, 1146, 1148, 1150, 1152, 1154, 1156, 1158, 1160, 1162, 1164, 1166, 1168, 1170, 1172, 1174, 1176, 1178, 1180, 1182, 1184, 1186, 1188, 1190, 1192, 1194, 1196, 1198, 1200, 1202, 1204, 1206, 1208, 1210, 1212, 1214, 1216, 1218, 1220, 1222, 1224, 1226, 1228, 1230, 1232, 1234, 1236, 1238, 1240, 1242, 1244, 1246, 1248, 1250, 1252, 1254, 1256, 1258, 1260, 1262, 1264, 1266, 1268, 1270, 1272, 1274, 1276, 1278, 1280, 1282, 1284, 1286, 1288, 1290, 1292, 1294, 1296, 1298, 1300, 1302, 1304, 1306, 1308, 1310, 1312, 1314, 1316, 1318, 1320, 1322, 1324, 1326, 1328, 1330, 1332, 1334, 1336, 1338, 1340, 1342, 1344, 1346, 1348, 1350, 1352, 1354, 1356, 1358, 1360, 1362, 1364, 1366, 1368, 1370, 1372, 1374, 1376, 1378, 1380, 1382, 1384, 1386, 1388, 1390, 1392, 1394, 1396, 1398, 1400, 1402, 1404, 1406, 1408, 1410, 1412, 1414, 1416, 1418, 1420, 1422, 1424, 1426, 1428, 1430, 1432, 1434, 1436, 1438, 1440, 1442, 1444, 1446, 1448, 1450, 1452, 1454, 1456, 1458, 1460, 1462, 1464, 1466, 1468, 1470, 1472, 1474, 1476, 1478, 1480, 1482, 1484, 1486, 1488, 1490, 1492, 1494, 1496, 1498, 1500, 1502, 1504, 1506, 1508, 1510, 1512, 1514, 1516, 1518, 1520, 1522, 1524, 1526, 1528, 1530, 1532, 1534, 1536, 1538, 1540, 1542, 1544, 1546, 1548, 1550, 1552, 1554, 1556, 1558, 1560, 1562, 1564, 1566, 1568, 1570, 1572, 1574, 1576, 1578, 1580, 1582, 1584, 1586, 1588, 1590, 1592, 1594, 1596, 1598, 1599, 1600, 1601, 1602, 1603, 1604, 1605, 1606, 1607, 1608, 1609, 1610, 1611, 1612, 1613, 1614, 1615, 1616, 1617, 1618, 1619, 1620, 1621, 1622, 1623, 1624, 1625, 1626, 1627, 1628, 1629, 1630, 1631, 1632, 1633, 1634, 1635, 163

CUSTOM-HOUSE CASES.

The Prosecution Succeeded in Finding Another Witness.

Who Relates a Conversation He Had with Burling.

That Particular Defendant Is Put On the Stand.

And Gives Some Idea of His Duties and His Troubles.

The Law Doctor's Story Denied—Care in the Inspection.

After another day of rest, and under the less invigorating influences of the weather which Old Probs has so generously provided for this week, —so marked in contrast with last week,—the Court, counsel, and defendants in the trial of the Custom-House cases returned to their several tasks yesterday morning with an appearance of having taken a new lease of life all around. It was the eighteenth day of the trial, with a prospect—slight though it was—of getting through by the end of the week, and hope, which is alleged to spring eternal in the human breast, was allowed to jump around for all it was worth. With the change in the weather, and under the receding influences of this same feeling of hopefulness, the trial was drawing high, the sense of the impending doom was observable last week, and the proceedings were at the same time somewhat more interesting.

Judge Dyer took his seat on the bench at 11 o'clock, the venerable crier went through his daily morning pantomime, and in a moment more everything was ready for business.

Mr. Sweet called.

PATRICK GRIFFIN, the Government witness, whom he put on the stand the other day, for the purpose, he said, of cross-examining him on matters coming to his knowledge since the witness left the stand on the former day. The witness had handed a letter and asked if it had been written it. After reading it through, to get used to it, he admitted that it was his. Mr. Boutil, after skimming it over, handed it back to Mr. Sweet, who offered it in evidence. Mr. Boutil, therefore, said he would prefer to have it submitted to the Court, and Mr. Sweet, after reading it through, to get used to it, handed it back to Mr. Campbell, who put it in evidence. Mr. Campbell then remarked that French could determine whether the Government was satisfied or not.

"Wait," said this gentleman, "I've got my feet planted on my native health now, and I'm going to keep them there if I can." [Laughter.]

He then went on to say that French wasn't the man to express the Government's dissatisfaction with the performance of Mueller's contract. He simply performed clerical duty, and that the latter might have the matter before him and determine how to act. There was no sort of opposition on the part of the defense to show that Smith and Thomson were right.

Mr. Sweet then said the report was made on the statements of all the parties, and he was willing to let everything in.

Mr. Boutil was in some doubt as to his responsibility or inaccuracy on one particular point set forward by Mr. Hoyne, its tendency to show that the Government was satisfied with the performance of Mueller's contract. French could determine whether the Government was satisfied or not.

Mr. Sweet pleaded that the knowledge of the letter came to him after the witness left the stand.

Mr. Boutil said he would withdraw any objection he had if the other side would object to newly-discovered evidence on the part of the prosecution.

Mr. Sweet refused to do any "trading," and was willing to let the matter stand or fall on its own merits.

After some further talk, the Court let it stand, and allowed to go, and Mr. Sweet, in the letter with all the gusto of a man rolling a sweet morsel under his tongue. It was as follows:

CHICAGO, June 26, 1879.—Mr. George Read, Esq., of New Haven, Conn., you have a few lines, hoping they may find you busy and well. George, I was speaking to Special-Agent Keefe when he was going to the office of the Postmaster, and he said to me, "I have a letter for you, but I am not at home yet." If he did, and that you consent to have it, I will give it to you. I will have it sent to you, your interest to do so, as there is all of eight months' work around the building, and Read is to be remunerated for it. I will have it sent to you, and you will be remunerated for it. The only question is as to whether the Government would take steps to punish them or not.

The Court, referring to a report of French's, directed by the prosecution, that he had been on the 15 per cent contract, and was a different character from the one now sought to be put in.

The former report was made while the work was in progress, and the proposition then made was to have the building finished at a lower rate, and to have the contractor paid more.

"Wait," said he, "I've got my feet planted on my native health now, and I'm going to keep them there if I can." [Laughter.]

Mr. Campbell looked at the clock and remarked, "Suppose, your Honor, we pass to lunch?"

The Court assented and all "passed."

After a few moments' silence, the Court said, "I will let the witness go to the jury." The witness had not, however, been engaged with a failure to meet the requirements of the contract. Now, this report—that of a high Government officer—showed that the Government was satisfied with the performance of Mueller's contract, and that he had been remunerated for it.

Mr. Sweet refused to have that point put to the jury, as he was not in a position to do so.

Mr. Sweet, however, was very anxious to have that point put to the jury, as he was not in a position to do so.

Mr. Sweet, however, was very anxious to have that point put to the jury, as he was not in a position to do so.
